

# EMERGENCY WITH A WILD SIDE

## STATION EMS BRUSH FIRES

**This boot is born to hang out and work around the station...**

- ▲ Multiple padded collar comforts and protects your leg and ankle.
- ▲ Front zip entry allows you to get this boot on or off quick when time is critical.
- ▲ Soft FIRE retardant leather designed to fight the smallest roadside brush fire or any NFPA 1977-2005 Wildland situation you may face.
- ▲ Moisture wicking airflow perforation pores provided in the shaft.
- ▲ Flexible Vibram® Fire and Ice Sole gives durable heat protection while improving traction in the deepest of winters.
- ▲ Flexible Goodyear storm welt construction is the most durable sole construction known in the shoe industry, and allows sole to be replaced if necessary.
- ▲ 3M™ Scotchlite™ high visibility reflective piping and heel patch make you visible DAY or NIGHT when it is necessary.

**...But when an emergency happens, day or night, this boot kicks into full foot protection mode.**

- Flexible L-Protection™ puncture resisting material offers full NFPA 1999-2008 EMS protection while helping to insulate the foot from the outside elements.
- Thorogood's flexible welt and polyurethane removable footbed gives you, out of the box, all day comfort to your feet.
- Fully lined with Sympatex® waterproof, breathable, blood borne pathogen resisting barrier.
- Lightweight durable composite safety toe reduces the transfer of outside hot or cold temperatures to your toes. ASTM F 2413-05 M/I/75/C/75 PR EH Rating.

**THIS BOOT IS NOT DESIGNED FOR 1971-2007 STRUCTURAL FIRE FIGHTING OF ANY KIND.**
